PROFESSIONAL SUMMARY

Front End Developer and React Developer with hands-on experience designing, building, and deploying responsive, accessible web applications using React, JavaScript (ES6+), TypeScript, and Tailwind CSS. Proven ability to translate Figma designs into clean, semantic, cross-browser compatible code, integrate RESTful APIs, and manage global state with Redux. Experienced working in Agile/Scrum teams using Git, GitHub, and CI/CD pipelines, with a strong focus on web performance optimisation, accessibility (WCAG), and code quality. Immediately available for full-time Front End / React Developer roles in the UK; requires no visa sponsorship.

KEY SKILLS

- Frontend Development: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS/SCSS, JSX, Component-Based Architecture, Responsive Web Design, Mobile-First Development
- State Management & UI Libraries: Redux, Context API, Tailwind CSS, Material UI, Shadcn/ui, Figma (design-to-code implementation)
- Testing & Quality: Unit Testing, Component Testing, Cross-Browser Testing, Debugging, Postman (API Testing)
- Tools & Workflow: Git, GitHub, Vite, npm, Webpack, Jira, Confluence, Agile/Scrum, SDLC, CI/CD Pipelines, Version Control
- Backend Integration & CMS: RESTful API Integration, JSON, Firebase (Authentication & Firestore), WordPress (Themes, Plugins, ACF), Contentful CMS, Basic PHP
- Web APIs & AI Integration: Speech-to-Text (Web Speech API), Text-to-Speech, Camera & Microphone APIs, LLM Integration, AI-Assisted Development (GitHub Copilot, Codex)
- Performance & Accessibility: Web Performance Optimisation, Web Accessibility (WCAG), SEO Fundamentals

PROFESSIONAL EXPERIENCE

Front End Developer Intern | Tegasys Solutions UK Ltd – London

Dec 2025 – Aug 2026

- Collaborated with a cross-functional team of 5 to build and deliver responsive UI features using React and Tailwind CSS, increasing deployment efficiency by 15%
- Integrated RESTful APIs and managed asynchronous state with async/await, ensuring smooth JSON handling and dynamic data rendering
- Translated Figma designs into pixel-perfect, production-ready, accessible interfaces
- Assisted in the design, development, testing, and deployment of software applications across the SDLC
- Worked within Agile/Scrum teams using Jira, contributing to sprint planning and feature delivery
- Participated in peer code reviews via Git/GitHub, improving code quality, maintainability, and consistency
- Contributed to UI consistency, cross-browser compatibility, and performance optimisation across the application

Mobile Phone Tester | Innofinity Worldwide – Sloane Square, London

May 2023 – May 2025

- Diagnosed and resolved hardware/software faults on iOS and Android devices daily, applying systematic debugging and problem-solving skills transferable to front end development
- Executed structured QA testing workflows and detailed bug reporting, developing a strong eye for performance issues, UI consistency, and quality standards

PROJECT EXPERIENCE

AI Interview Practice Platform (GRFI) | React, TypeScript, SCSS, Web APIs, AI

- Built an AI-powered interview practice platform that generates personalised interview questions based on the candidate's CV and job description
- Developed real-time interview features with camera, microphone, speech-to-text, and text-to-speech functionality using Web APIs for a fully interactive interview experience
- Designed a responsive and reusable React UI with TypeScript and SCSS, including interview configuration, question display, and answer tracking components

AI-Powered Job Tracker (Trackly) | React, TypeScript, SASS/SCSS, Shadcn/ui, Firebase

- Built an AI-powered Job Tracker using React, TypeScript, SCSS and Shadcn/ui with a responsive dashboard for managing job applications
- Integrated Firebase Authentication and Firestore for secure user management and real-time data storage
- Enhanced the platform with LLM-based AI features to streamline job tracking and improve user productivity

E-Commerce Product Engine | React, JavaScript, Redux, CSS

- Developed a fully featured e-commerce front end with authentication, protected routes, and dynamic cart functionality
- Implemented global state management using Redux and built reusable, scalable React components for consistency across the application
- Designed a fully responsive UI ensuring a seamless experience across devices; handled asynchronous operations using async/await and promises

Telecom Call Analysis Dashboard | React, JavaScript, Tailwind CSS, Shadcn/ui, Recharts

- Built a SaaS-style Call Data Record (CDR) analytics dashboard using React, Tailwind CSS, and Shadcn/ui
- Developed interactive data visualisations using Recharts, consuming live API data for dynamic reporting

CERTIFICATIONS

- AWS Certified Cloud Practitioner (CLF-C02) | Amazon | Jan 2026
- Microsoft Azure Fundamentals (AZ-900) | Microsoft | Nov 2025
- Software Tester Certification | QSpider | Jan 2023

EDUCATION & TRAINING

Coding Diploma (Software Development) BCS, The Chartered Institute for IT	<i>Jan 2025 – Dec 2025</i>
Bachelor of Business Administration Thiruvalluvar University	<i>Jun 2019 – Aug 2022</i>
